EDUCATION

COMPUTER SCIENCE AND ENGINEERING

Adama Science and Technology, Adama
May 2021 - Jun 2026

SKILLS

ABOUT ME

Backend-focused software developer with hands-on Node.js, NestJS, and full-stack MERN experience, plus a track record in IT support resolving hardware, software, and network issues for end-users. Combines technical troubleshooting with a growing skill set in scalable backend systems.

WORK EXPERIENCE

IT Support | ICS Addis (International Community School), Addis Ababa
Jul 2024 - Sep 2024
Jul 2025 - Sep 2025
Jul 2026 - Sep 2026

- For three consecutive years from july to september for 3 months I:-
- Resolved 5-15 hardware, software, and network support tickets per week across multiple school campuses, minimizing downtime.
 - Delivered front-line technical support across distributed IT infrastructure, escalating complex issues to appropriate teams when needed.
 - Maintained end-user devices and network connectivity for staff and students across multiple locations to support consistent day-to-day operations.

CERTIFICATES

Virtual Assistance | ALX
Jul 2024

- Virtual Assistance Certificate
- Trained in professional virtual assistance, specializing in administrative support, calendar and email management, and client communication.
